**REMINDER:** No siblings, regardless of age, will be allowed to accompany classes on field trips.

The cost of each field trip is calculated for total admission, if applicable, substitute cost, bus driver cost, mileage, etc., and divided evenly between the students. We no longer make refunds of field trip payments. It is never our intention to collect more than the cost of the field trip. However, because of estimated expenses, there may occasionally be some overage. Any funds (\$1.00 or more) remaining after all expenses are paid will remain in the activity and will be used for instructional purposes.
