

Calera Middle School

Math Department On-Line Textbook Request

Dear Parents/Guardians,

We are pleased to announce that we have more than one option for your child to access their math textbook this year.

Option 1 - Your child will be issued a math textbook to use in class and to complete assignments at home. Students will be responsible for bringing textbooks to class on a daily basis and will have to make sure that the textbook is kept in good condition for the entire school year. If textbooks are lost or defaced, students will be responsible for the replacement cost of the textbook. Please note that if students do not bring their textbook to school each day, they will not have textbooks to use at school during class time.

Option 2 - The alternative to students carrying textbooks each day, is for them to have access to the online textbook at home, on the internet at the textbook company's website. (<http://connected.mcgraw-hill.com>) Students utilizing this option will be given textbooks to use at school during class time only. If this is an option that you would like for your child to utilize, please be aware that he/she must have access to the internet outside of school on a daily basis.

Please sign and return the form below stating your textbook option for the 2017 - 2018 school year by August 25, 2017

Calera Middle School Math Department

Name of Student: _____
