**CLOTHES SUGGESTIONS FOR ADULTS:**

**What should I wear?** Many adults can wear all black....think of official uniforms like policemen. Many immigrants were scared because the processing center workers reminded them of policemen.

Many workers were former immigrants themselves with language skills. You can choose to dress like a citizen of 1900 with a long skirt, vest, aprons, hat, suit, a vest or a tie.

Many of the workers at Ellis Island were new citizens themselves and had come to America as an immigrant a few years before. **If you are in the medical station you can use scrubs, white coats, stethoscopes etc...**
