

Lesson 4: Homework

1. Complete the table and graph for the following situation: The library has 5 fiction books for every 3 non-fiction books.

Books in the Library	
Fiction	Nonfiction
5	3

Nonfiction Books

Fiction Books

Complete the following data table. Then make a graph that shows this relationship. How far can a car travel on 1 gallon of gasoline? Circle this point on your graph.

Gas Mileage	
Miles	Gallons of Gas
	1
50	2
75	
100	4
