

GEOBUILD PROJECT

People in Group: _____ **Class Period:** _____
_____ **Date:** _____

We are committing to build: _____

GUIDELINES FOR PROJECT

1. The project will be a gold grade! It must be completed at school.
2. The base for the project must be no bigger than a student desktop (24" length x 18" width) and must be sturdy material (cardboard/foamboard).
Your group will be responsible for providing the base for your project.
3. Students will use the polygons provided by the teacher to construct their project.
4. Additional items such as string, wooden dowels, tissue paper, etc. may be brought from home to enhance the project (no spraypaint).
5. Students may need to bring their own glue/tape as the project progresses to supplement that provided by the teacher.
6. The project will run approximately one week.
7. Presentations of projects is scheduled for Monday, April 25th.
8. Creativity is key! Let your creative imagination run free!

Use the space below to plan how you will construct your project!
